

STRIKE E-505

Chlorpyrifos 50% EC + Cypermethrin 5% EC

Is a dual-action agricultural insecticide designed to tackle a broad range of pests. It effectively controls:

- **Rice:** Stem Borer, Leaf Folder
- **Cotton:** Aphid, Jassid, Whitefly, American Bollworm, Pink Bollworm, Spotted Bollworm

Combining Chlorpyrifos and Cypermethrin, STRIKE-505 offers comprehensive protection and ensures crop health and high yields.

Always read and follow label instructions.

STRIKE-505: DUAL-ACTION POWER FOR SUPERIOR CONTROL OF KEY PESTS IN RICE AND COTTON

Active Ingredient:

Chlorpyrifos 50% EC + Cypermethrin 5% EC

Features:

- Strike-505 is an economical combination product.
- Strike-505 due to higher persistence on the leaf surface, is effective for a longer duration, it also gives effective control of sucking pests in various crops and hence can be used under multiple pest attack situations.
- Due to its higher persistence value, it remains effective for longer durations & more resistant to washing off due to rain water.

Mode of Action:

It is a broad-spectrum insecticide having contact, stomach & fumigant action.

Always read and follow label instructions.
