

A black ARBUDA shoulder bag is shown in the center, flanked by three bottles of pesticides: MOSQUIL, TERMI-SECURE, and DELTAFOG. To the right of the bag is a silver spray pump with a yellow nozzle and a white bottle of TERMIQUIT. The background is a blurred bokeh of lights.

ARBUDA SHOULDER BAG

The ARBUDA Shoulder Bag is designed specifically for pest management professionals, combining durability with practicality. Key features include:

- Durable and pesticide-resistant material for long-lasting use
- Fits 6.0-liter spray pumps for convenient transportation
- Multiple pockets for organized storage of tools and supplies
- Chemical-proof base for enhanced reliability and protection

Always read and follow label instructions.

DURABLE, PESTICIDE-RESISTANT BAG—PERFECT FOR PEST MANAGEMENT PROFESSIONALS' NEEDS.

Description and Features:

- These bags are manufactured for pest management professionals only.
- These bags are suitable to carry 6.0 ltr spray pumps.
- We have used PNP material which is resistant to pesticides, which means our bags are more reliable and have good durability.
- We have used a chemical-proof ply sheet as a base to increase the carrying capacity.
- We have provided pockets to increase the safeguarding of your valuable invoices and service cards.
- We have provided an extra pocket for the operator to carry a lunch box.
- We have used good quality thread with double stitches to increase the durability of the bag.
